

ALEX MORGAN

Senior Software Engineer

alex.morgan@email.com · +1 (555) 234-5678 · linkedin.com/in/alexmorgan · github.com/alexmorgan · San Francisco, CA

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 7+ years of experience building scalable distributed systems and cloud-native applications. Proven track record of delivering high-impact features across full-stack environments, mentoring junior engineers, and driving technical decisions that align with business goals. Passionate about clean code, performance optimization, and developer experience.

TECHNICAL SKILLS

Languages & Frameworks

Python	TypeScript	Go	React	Node.js	FastAPI
--------	------------	----	-------	---------	---------

Infrastructure & Tools

AWS	Docker	Kubernetes	PostgreSQL	Redis	Terraform
-----	--------	------------	------------	-------	-----------

WORK EXPERIENCE

Senior Software Engineer | TechNova Inc.

Mar 2021 – Present · San Francisco, CA (Remote)

- Architected and led development of a real-time data pipeline processing 50M+ events/day using Kafka, Python, and AWS Lambda, reducing latency by 65%.
- Designed and shipped a microservices-based checkout system serving 2M+ daily transactions, improving uptime from 99.5% to 99.97%.
- Mentored a team of 5 junior engineers through weekly code reviews, pair programming sessions, and technical design discussions.
- Reduced infrastructure costs by 40% by migrating monolithic services to containerized Kubernetes workloads on EKS.

Software Engineer II | CloudBase Systems

Jun 2018 – Feb 2021 · Austin, TX

- Built and maintained RESTful APIs using Node.js and TypeScript, powering mobile and web clients with 500K+ active users.
- Implemented CI/CD pipelines with GitHub Actions and ArgoCD, cutting deployment time from 45 minutes to under 8 minutes.
- Collaborated cross-functionally with Product and Design to deliver 3 major feature launches on schedule.

Junior Software Engineer | Pixel Forge Labs

Aug 2016 – May 2018 · New York, NY

- Developed front-end components in React for a SaaS dashboard used by 10,000+ customers.
- Improved page load performance by 30% through code splitting, lazy loading, and CDN optimization.

EDUCATION

B.S. Computer Science · University of California, Berkeley

Graduated May 2016 · GPA: 3.8 / 4.0

NOTABLE PROJECTS

OpenMetrics Dashboard

An open-source real-time observability dashboard built with React, Go, and ClickHouse. 1.2K GitHub stars. Features customizable panels, alerting, and multi-tenant support.

DevFlow CLI

A command-line tool for automating local Kubernetes development workflows. Written in Go, available via Homebrew. Used internally at TechNova to standardize dev environments.

CERTIFICATIONS

AWS Certified Solutions Architect – Professional · Amazon Web Services, 2023

Certified Kubernetes Application Developer (CKAD) · CNCF, 2022
