

Fatima Khan

Software Engineer

fatima.khan@email.com | +92 321 987 6543 | Islamabad, Pakistan | github.com/fatimakhan

Summary

Software Engineer with 3 years of experience building web applications using Python and JavaScript. Familiar with Agile workflows and collaborative development. Consistently delivers clean, maintainable code and meets project deadlines.

Experience

Software Engineer | DataBridge Technologies | Aug 2021 – Present

- Developed and maintained RESTful APIs using Django REST Framework, serving 10,000+ daily users
- Collaborated with front-end team to integrate React components with backend services
- Reduced API response time by 30% by optimizing database queries and introducing caching
- Participated in code reviews and contributed to improving team coding standards

Junior Software Developer | StartupX | Jun 2020 – Jul 2021

- Built CRUD features for an internal project management tool using Flask and PostgreSQL
- Wrote unit tests with pytest, maintaining 75%+ code coverage across the codebase
- Assisted in migrating legacy scripts to Python 3, reducing technical debt

Technical Skills

- Languages: Python, JavaScript, SQL, HTML/CSS
- Frameworks: Django, Flask, React, Node.js
- Tools: Git, Docker, Postman, JIRA
- Databases: PostgreSQL, MySQL, Redis
- Cloud: Basic AWS (EC2, S3, RDS)

Education

BS Software Engineering – FAST-NUCES, Islamabad – 2020

Projects

Expense Tracker API – Django REST + PostgreSQL; deployed on AWS EC2
Task Board – React + Node.js; real-time updates via WebSocket

Certifications

- AWS Cloud Practitioner (in progress)
- Python for Data Science – Coursera, 2022
